

# Flat Washer Thickness Table

## Standardized Steel Gage Thickness

The Flat Washer Gage Thickness/Plain Washer Gage Thickness Table displays standardized steel thicknesses for standard flat washers (also known as plain washers). Washers are manufactured from Strip & Tube steels. Gage Numbers are standardized strip/tube steel thicknesses. These gage thicknesses are standards among manufacturers of strip & tube steel. Gage measurements are in inches.

Thickness	
Gage Number	Gage Measurement (in inches)
00000	0.500
